PEACE HAVEN

Peace Haven Corp is an Artificial Intelligence, DevSecOps and IOT/Robotics Company based out of the Northern Virginia Area.

We are subcontractors to some Federal Agencies within the DMV and Washington DC Area.

We have past performance with the following Federal Agencies

United States Patent Office
United State Census Bureau
Department of Defense
Department of Veteran Affairs
Accenture Federal Services
Department of Defense - Space Camp
US Military F35 Fighters

Our company is headed by PhD's and Members of Higher Education and Interests. Our Engineers are professionally trained in Project Management and provide deliverables on time as scoped.

There is no technology that is hard for the members of the team.

We love the capability of the Cloud and Services Provided by AWS, GCP and Azure. Our Engineers are trained and seasoned to deliver functionalities on any cloud environment.

We are Partners in Action with AWS, Azure and GCP. Our Cloud Environments are FedRamped Certified.

We are more of a research based and proof of concept based intellectual mindset Engineers. We love to be challenged beyond our limits.

DevSecOps

We do anything DevOps and Automation. Our Focus for 2020 to 2030 is to convert every Federal Agency into a DevOps Working Model with the Government IT Workforce Pumping useful code to the US Citizens and Consumers.

The niche technologies we focus are on Security Automation, Remediation, Dockers and Kubernetes. Application of Artificial Intelligence in Security and DevOps

PEACE HAVEN

IOT/Robotics and Artificial Intelligence

Our Next Goal is to pump DevOps with Artificial Intelligence on Data and IOT/Robotics in any Form Available.

Here we like to pioneer and work on technologies that no one has put their foot into. Patent and develop it and sell to the Govt. Our Research based staff are savvy of new technologies.

We have all the tools in the DevOps Industry – AWS, Azure, GCP, Twistlock, OSCAP, Openshift, Dockers, Kubernetes, Service Mesh, Gitlab and evolving to the best.
